Letter of Commitment UN Global Compact

Dear Mr. Secretary General,

We are pleased to inform you that PPI AG supports the ten principles of the UN Global Compact in the areas of human rights, labour standards, environmental protection and anti-corruption. This letter expresses our intention to advance the implementation of these principles within our sphere of influence. We will widely communicate this commitment to our stakeholders and the public.

We also pledge to support the UN Global Compact through the following activities:

Promoting and implementing partnerships with private sector actors and humanitarian organisations in the area of sustainability (corporate sustainability), supporting corporate partners of the UN Global Compact in reporting on their social sustainability activities, and our engagement and cooperation with the German Global Compact Network.

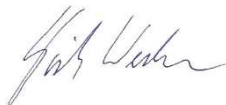

We recognise that a critical condition of our participation in the Global Compact is the biennial submission of a Communication on Engagement (COE) that describes our organisation's efforts to promote the principles of the Global Compact and the initiative.

We support public accountability and the requirement for transparency and commit to report on our progress within two years of joining the Global Compact and every two years thereafter in accordance with the Global Compact COE guidelines.

Yours sincerely,

PPI AG
